# **BUILD EXPO GREECE**

## **Build Expo Greece: The foundation of the construction sector.**

**BUILD EXPO GREECE** is the must-visit event of the year for the construction industry. All prominent construction companies of Greece and the region's sector will meet with thousands of trade visitors, on 17-20 of October, showcasing the new trends and their products and services.

Greece is showcasing some of the largest ongoing construction projects in Europe. From Europe's greatest urban regeneration projects up to large infrastructure designs, Greece is the region's most dynamic market and it is an ideal destination for investment and business development.

**Join now and become a part of a vast business network!**

**BUILD EXPO GREECE** is a powerful platform for every professional, providing all necessary tools for business networking and development. Having emerged as the most important hub of the construction sector in Southeast Europe and East Mediterranean, the exhibition encourages business extroversion and international collaborations.

**Increase your brand awareness,  
expand your business!**

**BUILD EXPO GREECE**, having established a wide business network throughout the region and beyond, is the point of reference in a world that is changing. It attracts the right audience to an ideal business environment, creating business opportunities for the exhibitors and its trade visitors alike.

In addition, the announcement of new major public and private projects, in Greece and in the region, meets the exhibition's orientation to highlight important fields of innovation for the industry such as energy efficiency and sustainable technologies. Thus, **Build Expo Greece** combines entrepreneurship with know-how, providing not only the business opportunities but also the tools to make good use of them.

# WHY YOU SHOULD PARTICIPATE IN BUILD EXPO GREECE?

As always, **BUILD EXPO GREECE** is the event of the year for the construction industry of the region, providing unique opportunities for its exhibitors as well as its trade visitors.

Greece's construction and building sector is Europe's most vigorous market, providing business opportunities for further growth of the industry.

**BUILD EXPO GREECE** is the most important exhibition in the region, specialised in the building industry and construction.

Every year the exhibition is the ideal business destination for the professionals of the sector. By participating in the exhibition you have the opportunity to meet the people who design and curate the projects.

Specialised events by associations and renowned professionals will take place along with the exhibition and will offer valuable information about new trends and training on new technologies.

The high turnout of international companies and buyers provides opportunities for international collaborations, promoting extroversion and growth.
